Southport

Rose Valley Dr  
Highland Reserve

Thank you for expressing your desire to be identified as a member of our local church.

If you have accepted and confessed that Jesus Christ is your Saviour and Lord, the Holy Spirit is the one who affirms to you that you are a child of our heavenly Father and therefore a **member of His family**, the church.

To desire to be a member of our local church family you are saying that this is the local group of people that I desire to be connected with, to learn with and live with as a representation of the family/people of God. These are those with whom I will submit to the authority of the Word of God, those who I will pray with & for, extend love to and enjoy the life of God with.

There is of course much more that could be said about what it means to be part of the people of God and to enter more deeply into what this means is the reason for being in community.

The first step, now that you have approached us regarding membership is to read through a copy of our current "Constitution" which sets out some summary statements of what we believe and guidelines for us functioning together and in order under God. Please find one enclosed along with a membership discussion form, please fill the form in and return to the church office. On receipt of your form someone will contact you for a personal interview and a written report will be given to the Board. The Board will consider your membership application at the next scheduled Board meeting. It is our practice to give notice of this pending admission to all members.

Please take the time to read this material, fill in the application form and membership covenant and return to the church office as soon as convenient.

Yours in Jesus  
Matt Hunt
